

Fixture Moving Made Easy.

Seamless
fixture-moving
services save you
time and money.

Whether you're replacing your flooring, remodeling stores, or simply reconfiguring shelving, you need to move your fixtures. Inside Edge Commercial Interior Services™ will do it quickly, safely and easily with our innovative fixture-moving services and equipment.

Move fully loaded shelving The Gondola Jax™ trolley system raises shelving off the floor so it can be rolled away without unloading your merchandise. No need to worry about scratching or damaging your new floors.

No hassles Save time, money and headaches. The Gondola Jax system safely moves fully loaded fixtures, with a minimal crew, in a fraction of the time required to unload merchandise or break down shelving. Store remodeling and flooring repairs can be done overnight.

Versatile applications The Gondola Jax trolleys work with most gondolas, fixtures, pallets and metal shelves.

» Move your shelves in just a few simple steps.

Gondola Jax trolleys are safer and easier to use than most available systems. Suggested crew: 2 people per 16' of shelving

1

Remove base fronts

2

Attach bracket clip

3

Attach trolley

4

Raise and lower shelving
with a cordless drill
